Riyadh, Saudi Arabia • +966 51 056 5165 • mohammed.saber.dev@gmail.com • linkedin.com/in/mohammed-saber-it

PROFESSIONAL SUMMARY

Results-driven IT Support Specialist & Systems Administrator with 2+ years of hands-on experience maintaining enterprise IT infrastructure, end-user computing, and mission-critical business systems across retail and corporate operations in Riyadh, Saudi Arabia. Demonstrated expertise in Microsoft 365, Microsoft Entra ID (Azure AD), network administration (TCP/IP, DNS, DHCP, VPN), Foodics POS systems, Self-Service Kiosks, and full lifecycle management of delivery aggregator dashboards (Jahez, Hungerstation, ToYou, Deliverect). Proven track record in minimizing operational downtime, streamlining digital workflows, and resolving complex Tier 1/2 technical incidents.

CORE TECHNICAL SKILLS

Systems & Cloud Administration: Microsoft 365 Admin Center, Microsoft Entra ID (Azure AD), Exchange Online, Windows 10/11, User Lifecycle Management & Role-Based Access Control (RBAC).

POS & Self-Service Kiosk Systems: Foodics POS Deployment & Configuration, Self-Service Interactive Kiosks (Hardware/Software Setup, Touchscreens, Mada/Payment Terminals), Epson Thermal Receipt Printers.

Delivery Platforms & Partner Dashboards: End-to-end management of delivery aggregator dashboards (Jahez, Hungerstation, ToYou, Deliverect, The Chefz, Ninja), Menu Management, Branch Operating Status, and API/Webhook Troubleshooting.

Networking & Infrastructure: TCP/IP, DNS, DHCP, VPN, VLAN basics, Static IP Allocation, Routers, Switches, Access Points, Network Diagnostics, and Branch Connectivity Monitoring.

IT Support, Hardware & Security: Desktop/Laptop Assembly & Troubleshooting, Remote Support (AnyDesk, RustDesk, RDP), Incident Management, Microsoft Defender for Endpoint, CrowdStrike Falcon.

ERP, Databases & Digital Administration: Odoo (Helpdesk & CRM), Basic SQL Server Queries & Log Tracing, Technical Administration of Corporate Social Media Accounts & Access Controls, Technical Documentation.

PROFESSIONAL EXPERIENCE

International Dishes Company

Riyadh, Saudi Arabia | June 2024 – Present (2 Years)

IT Technical Support Specialist

- Deliver comprehensive Tier 1 & Tier 2 technical support and incident management for 100+ corporate users and multi-branch operations, ensuring maximum business uptime.
- Administer Microsoft 365 tenant and Microsoft Entra ID (Azure AD), managing user accounts, security groups, licensing allocations, and Exchange email routing policies.
- Deploy, configure, and maintain Foodics POS systems and Self-Service Kiosks across branches, resolving touchscreen, payment gateway, and Epson thermal printer issues.
- Manage partner dashboards and operational integration for all delivery platforms (Jahez, Hungerstation, ToYou, Deliverect, The Chefz), handling menu pricing, branch availability, and resolving API synchronization errors.
- Oversee technical administration and security for corporate social media accounts, managing role-based access permissions, multi-factor authentication, and digital touchpoint integration.
- Troubleshoot LAN/Wi-Fi infrastructure, configuring branch routers, access points, static IP reservations, and secure VPN connections for seamless connectivity.
- Manage IT ticketing lifecycle and support queues via Odoo Helpdesk adhering strictly to SLAs, and execute SQL Server queries for performance monitoring and transaction audit.
- Coordinate with external technology vendors and development teams to conduct functional testing, report system bugs, and validate updates prior to deployment.
